SUMMARY

I am a passionate software developer with over 4 years of experience in Frontend development. I excel in debugging and streamlining processes to elevate user experiences. My dedication led to a notable 60% increase in project delivery efficiency. I thrive in collaborative environments and mentor junior developers to foster growth and knowledge sharing.

EXPERIENCE

Frontend Developer

Diligenttek

📅 09/2024 - Present 📍 Karachi, Sindh

- Worked with both international and in-house teams to build and deploy web applications
- Elevated to the position of Senior Frontend Developer, demonstrating advanced proficiency in frontend technologies.
- Led the technical aspects of multiple projects, providing guidance to junior developers and contributing to architectural decisions.
- Implemented performance optimizations resulting in a significant reduction in page load times.
- Collaborated with cross-functional teams, including backend developers and UX designers, to deliver integrated and polished solutions.
- Actively involved in mentoring junior team members and conducting knowledge-sharing sessions.

Frontend Developer

MetaNerds Lab

📅 06/2023 - 09/2024 📍 Karachi, Sindh

- Collaborated with cross-functional teams to deliver high-quality frontend solutions for various client projects, ensuring alignment with brand standards and client expectations.
- Took ownership of multiple projects, overseeing the entire development lifecycle from initial planning and design to implementation and deployment, ensuring timely delivery and adherence to project specifications.
- Implemented best practices in frontend development, including code reviews, testing, and documentation, to maintain high code quality and improve maintainability.

Frontend Developer

Salsoft Technologies

📅 09/2022 - 06/2023 📍 Karachi, Sindh

- Participated in both internal and client projects.
- Progressed to the role of Frontend Developer, taking on more responsibilities and refining my coding skills.
- Collaborated closely with design teams to bring creative concepts to life and ensure seamless user experiences.

Frontend Developer

Inviz Technologies

📅 04/2022 - 08/2022 📍 Karachi, Sindh

- Joined as a Junior Frontend Developer, gaining foundational experience in HTML, CSS, and JavaScript.
- Developed a solid understanding of frontend development principles and best practices during the initial phase of my IT career.
